To Whom in May Concern:

This is a letter of recommendation for Dr. Michelle Rosemond, the founding Vice President for Student Engagement and Success at Georgia Gwinnett College. In the establishment of this new division, Dr. Rosemond was charged with providing leadership, vision, and advocacy for a comprehensive array of student services to support academic student success, retention, career readiness and timely graduation. As the chief student success strategist, responsibilities included establishing campus priorities for access, academic success, positive campus student life experiences, and high-impact retention strategies. This role was responsible for overseeing the strategic planning, development and management of comprehensive academic advising, mentoring and support resources to ensure a highly transformative student engagement culture.

Among Dr. Rosemond's key strengths include her enthusiasm around sharing data both on and off campus to advance the understanding of how institutional research analytics can be harnessed to support student success initiatives. She has a natural curiosity and drive to explore micro data and qualitative analysis to gain a better understanding of student interests. Dr. Rosemond is also passionate about supporting leadership transparency through data sharing as evidence in her semi-annual campus data sharing tours and monthly student success newsletter.

I recommend Dr. Michelle Rosemond for any role where her talents and passion can advance your organization.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jann L. Joseph", with a long, sweeping flourish extending to the right.

Dr. Jann L. Joseph
President
